Danmarks uafhængige tænketank

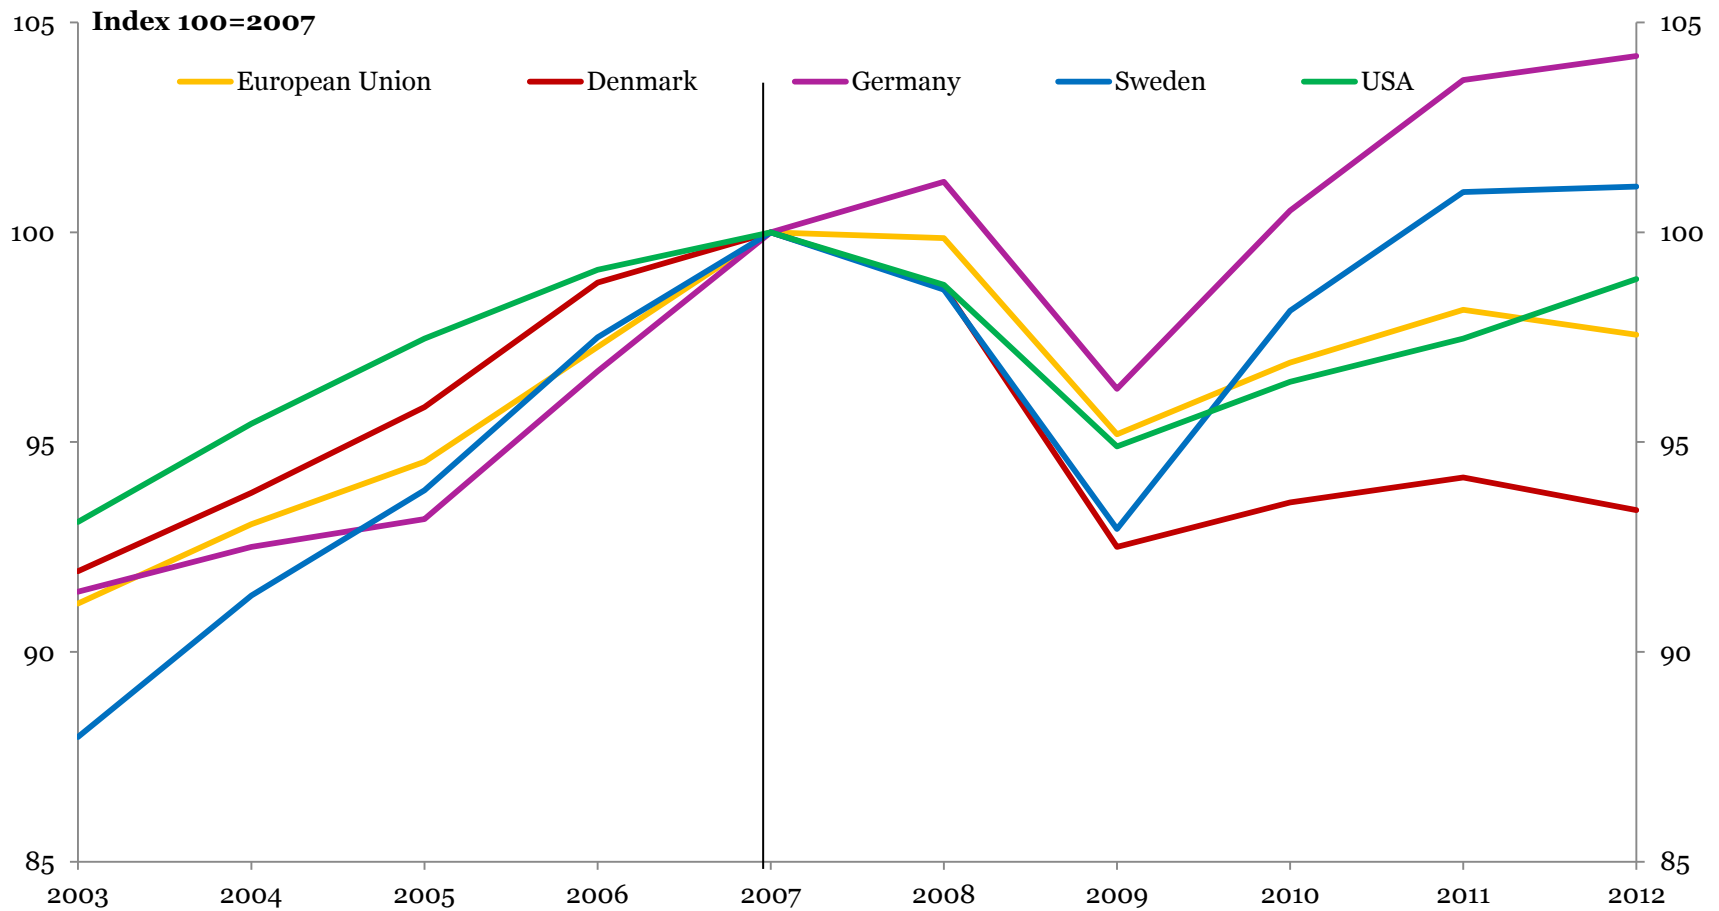

Financial Crisis, Banking Union
and New Financial Regulation

Introduction d. 27.05. 2013

by Peter Mogensen

GDP pr. Capita

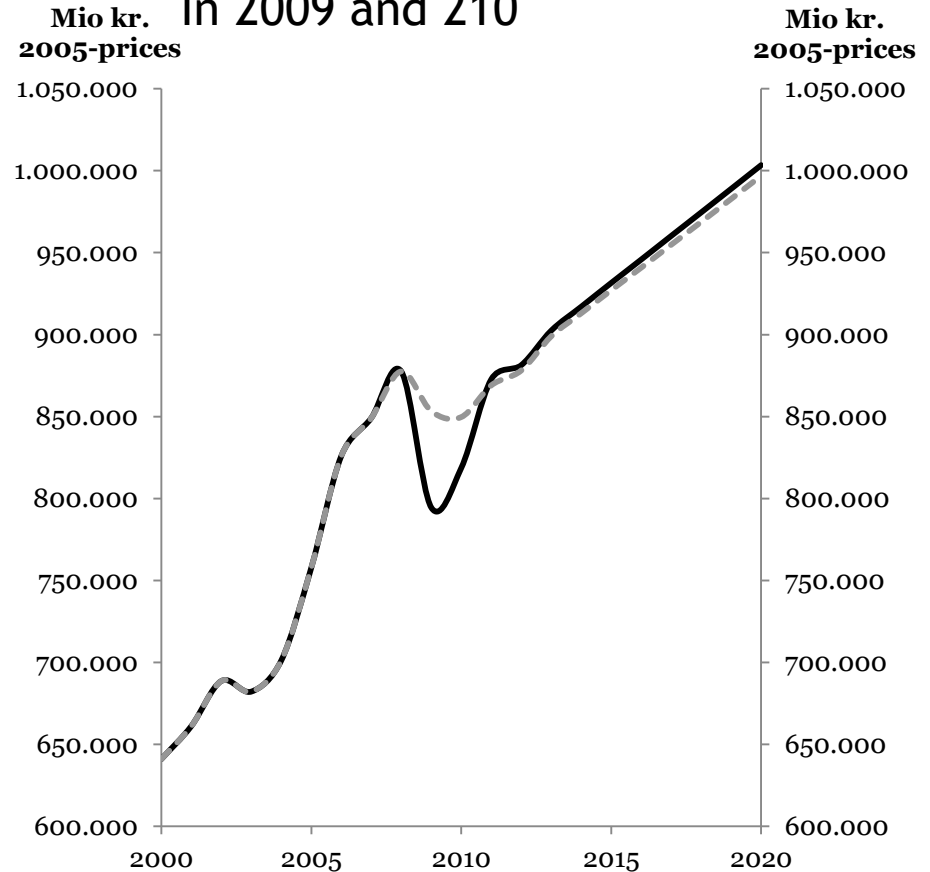

A simple “what-if” experiment: The impact from the housing bubble and the slump in export markets in 2009/2010

We remove the housing bobble:

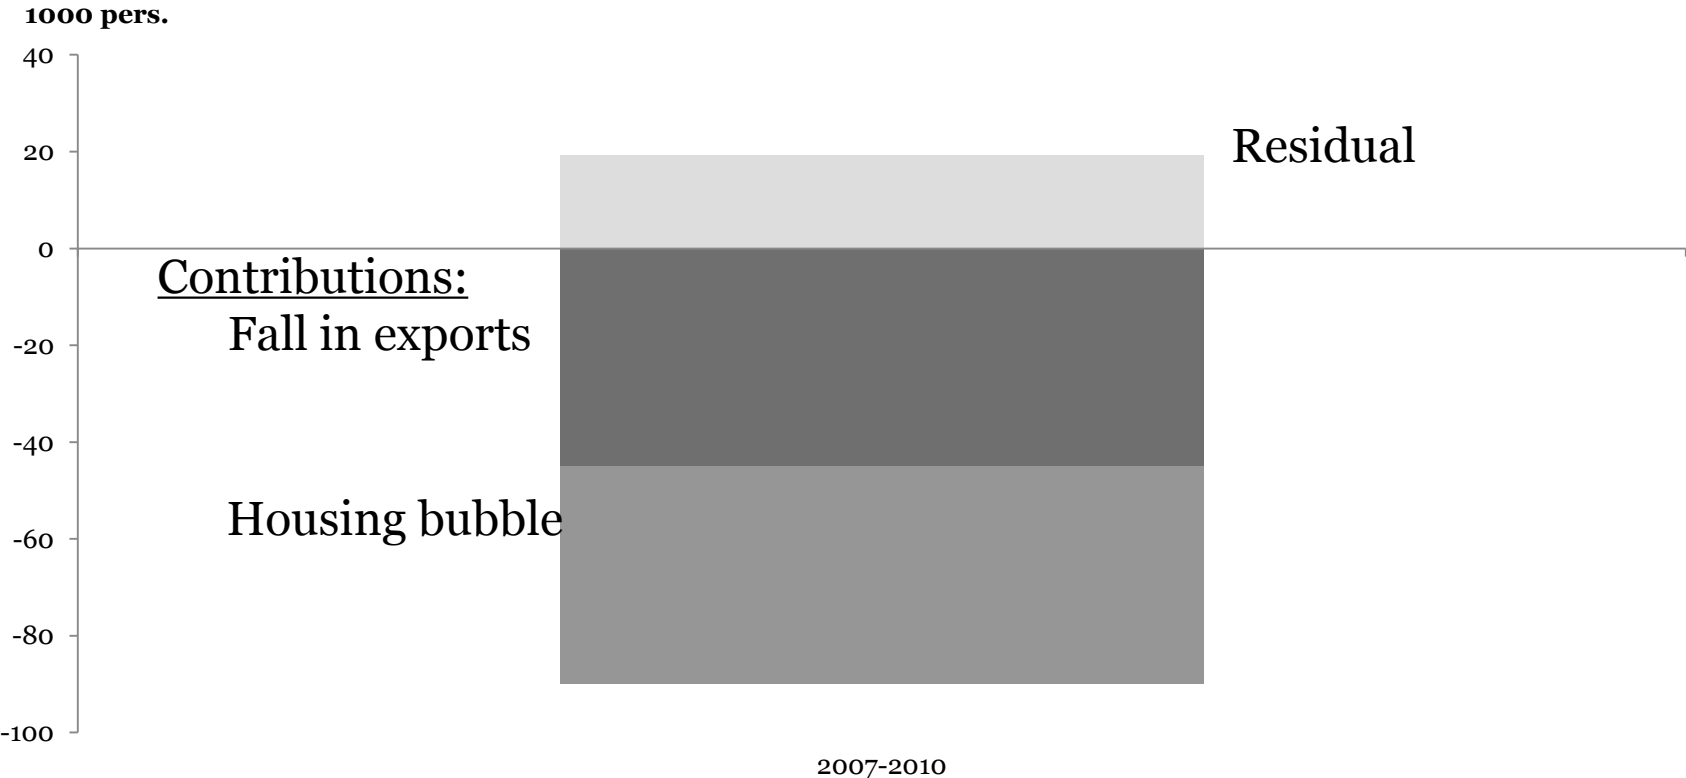

Index 100 = year 2000

We remove the fall in exports
In 2009 and 210

...And calculate the impact on employment (ADAM) from 2007-2010....
